COURSEWORK

UNDERGRADUATE

Data Structures & Algorithms

Object Oriented Programming System (OOPs)

Database Management System

Operating Systems

Computer Networks

AREAS OF EXPERTISE

- Have experience of working in Support & Development projects using Oracle Fusion Cloud services.
- Single handedly led the General Ledger technical track.
- Solution building, development, unit testing, building test cases.

SKILLS

EXPERIENCED

- Oracle ERP Cloud • Data Models & Reports • BIP • OTBI • FBDI • BICC
- Performance Optimization • OIC
- SQL, PL/SQL • Oracle AI Agent Studio

TOOLS

- Git • GitHub • MS Excel

WORK EXPERIENCE

- Dedicated Business Analyst having 5 years of experience engaging with the business stakeholders to understand business needs and provide solutions using Oracle Cloud services.
- Attention to detail, Initiative driven, Good Client Engagement along with being a good Team Player with Leadership Skills.

DELOITTE USI | ANALYST

September 2021 – Present | Kolkata, IN

- Built two internally reusable tools now adopted as Deloitte assets across engagements: the Migration Plan Generation Tool (sole owner), an offline HTML/CSS/JS app that automates Dev-to-Prod migration documentation and cuts documentation effort by ~80%; and the Data Integrity Console (co-owner, validation module), which compares a failed integration file against a valid reference to automatically surface every data inconsistency.
- Developed reports, enhancements, interfaces, and dynamic-behavior improvements using Fusion tables and tools (BIP, BICC, OTBI, FBDI), expanded ownership from GL into AP, AR, and PO and delivered cross-module fixes.
- Led delivery of multiple major enhancements to stabilize a large-scale Oracle Cloud implementation during hypercare, streamlining post-go-live GL workflows.
- Implemented multiple automations to eliminate manual and third-party intervention, expediting period close and data reconciliation and driving significant cost savings for the client.
- Performed performance tuning of SQL/BIP reports, procedures and OIC integrations, cutting report runtimes by ~85% and an integration runtimes by ~65%, enabling faster period close.
- Stabilized subledger (FAH) processing by fixing recurring file-failure bugs, enhanced a journal posting/clearing, reducing tickets and improving data consistency.
- Corrected and performance-tuned MEC-critical reports improving accuracy and speed during period close. Also enhanced it to bring more accurate data.
- Implemented a Supplier Tax Registration Number API for automated validation and migrated FX reporting to support new currencies.
- Collaborated with cross-functional teams (GL, AR, RMS, ARCS, EJ/FCCS) to design solutions aligned with organizational goals; authored technical documentation and knowledge articles, conducted unit testing, and performed code reviews.
- Mentored associate and junior analysts on GL, month-end close, SQL, PL/SQL, and OIC, enabling them to operate independently as backups; managed project updates with offshore/onshore leads and clients and drove daily stand-ups.
- Earned League of Champions Award and multiple client and Deloitte leadership commendations for rapid incident turnaround and release-management support.

CERTIFICATIONS

- **120-1042-25** - Oracle Cloud Infrastructure 2025 Certified Application Integration Professional <[Verify](#)>
- **120-1122-25** - Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate <[Verify](#)>
- **120-1145-1** - Oracle Fusion AI Agent Studio Certified Foundations Associate - Rel 1 <[Verify](#)>
- **120-1155-1** - Oracle Fusion AI Agent Studio Certified Developer Professional - Rel 1 <[Verify](#)>
- **120-1155-2** - Oracle Fusion AI Agent Studio Certified Developer Professional - Rel 26-2 <[Verify](#)>
- Anthropic AI Fluency: Framework & Foundations <[Verify](#)>
- Anthropic Claude 101 <[Verify](#)>
- Anthropic Claude Code 101 <[Verify](#)>

AWARDS & APPRECIATIONS

SPOT AWARD/APPLAUSE AWARD

Awarded for successfully leading GL technical track and fine-tuning complex reports, stabilizing the track post go-live and for contributions in extra curriculars.

SHOUT-OUT

Got a shout out from onshore manager for tackling new challenges and embracing learning with eagerness.

Got shout outs from team members for innovative ideas and taking initiatives and great teaming in general.

EXTRA-CURRICULARS

- Core team member of the Kolkata PMO Deloitte Firm Initiative; helped organize various events on a location level and hosted leadership during their visits.
- Part of Tech Talent Group Core Team; helped organize multiple talent group level connects on a location level bringing together practitioners from all projects using Oracle technology to share ideas and developments happening across engagements hence bringing each other up.
- Part of Enterprise Ops Deloitte Firm Initiative; helped organize and host events on a firm level across locations.
- Part of Oracle AI Studio Initiative; helped develop an agentic workspace in Oracle AI Agent Studio that lets business users ask KPI questions in plain language. A supervisor agent interprets intent and routes each request to the right specialist agent, which queries live Oracle Fusion data, computes the metric, and returns an explained, audit-ready answer — turning manual KPI reporting into instant, conversational analysis.
